

**CITY OF SAN ANTONIO
REQUEST FOR QUALIFICATIONS (RFQ)
FOR
STORM WATER UTILITY FEE COMPREHENSIVE STUDY
AMENDMENT #3**

SEPTEMBER 23, 2013

Amendment #3 includes answers to questions received in writing.

I. QUESTIONS AND CLARIFICATIONS TO RFQ

1. Will the City provide an advance sample set of electronic parcel data and utility billing data for consultant evaluation?

Response: SAWS will provide the full billing account database to consultant.

2. Does the City desire for the consultant to conduct an evaluation of storm water service costs and needs to identify recommended annual revenues, or will this initiative be based on an already established annual revenue expectation?

Response: Internal efforts will be conducted to evaluate existing service costs as well as additional services needed. Determination of revenue needed will be done internally and will be provided to consultant to determine recommendations of proposed fees.
